- Friday 09th June 12:00 - 14:30

Description

Apridata is a data analytics solutions and consulting company helping organisations achieve data-driven innovation. We provide the building blocks to allow businesses leverage analytics for differentiation and competitive advantage. Our analytical and data solutions enable process automation, product and service innovation and improved decision making. We have experience in the Medical & Healthcare, Distribution, Media and Financial Services industries and continuously seek partnering opportunities with businesses that provide innovative data and analytical products that meet a market need.
